

Heritage Underwater Maritime Archaeology Gotland eller HUMA Gotland har undersökt lämningar som finns kvar efter den dansk-lybska flottan som förläste utanför Visby, i en fruktansvärd storm 1566.

Under 2008 utfördes marinarkeologiska undersökningar under 12 veckor på fyra platser längs Visbys kustband.

Heritage Underwater Maritime Archaeology Gotland or HUMA Gotland has examined the remains of the Danish-Lübeck fleet that was shipwrecked off Visby, in a terrible storm in the year 1566.

During 2008, maritime archaeological investigations were carried out over the course of 12 weeks at four locations along Visby's sea coast.
